

Jaya Hind Industries Announces ₹600 Crore Phased Investment Plan Over Two Years Across Its Manufacturing Locations

Pune/Chennai, 12th August 2026: Jaya Hind Industries Pvt. Ltd. (JHI), a fully vertically integrated company and a leading global supplier of precision aluminium die-cast components, today announced a phased investment of ₹600 crore over the next two years to strengthen its manufacturing capabilities and capacity across High Pressure Die Casting (HPDC) and Gravity Die Casting (GDC).

Further to the announcement of ₹200 crore towards the Chennai facility expansion, Jaya Hind Industries has decided to undertake an additional investment of ₹400 crore, taking the total planned investment to ₹600 crore.

The additional investment will be deployed in a phased manner over two years from FY2026–27 to FY2027–28 across its key manufacturing locations, including Akurdi & Urse in Pune, and Chennai. The expansion includes the establishment of a new state-of-the-art manufacturing facility in Chennai, installation of more than 12 new High Pressure Die Casting machines ranging from 1,200 tonnes to 3,500 tonnes, significant enhancement of precision machining capabilities, expansion of critical in-house processes such as heat treatment, impregnation and powder coating, as well as strengthening overall plant infrastructure.

The addition of a dedicated powder coating facility will further enhance JHI's ability to deliver fully integrated, value-added manufacturing solutions by providing high-quality surface finishing, improved corrosion resistance, superior product durability, and greater process control under one roof.

Commenting on the announcement, **Mr. Prasan Firodia, Managing Director, Jaya Hind Industries**, said, "At Jaya Hind Industries, we have always believed in investing ahead of customer requirements. As the demand for larger and more complex aluminium castings continues to grow, we are strengthening our manufacturing capabilities to deliver greater scale, precision and reliability. This investment will enhance our ability to support our customers' future programmes while continuing to build globally competitive manufacturing capabilities from India, in line with the Government's '*Make in India*' vision."

About Jaya Hind Industries Private Limited:

Jaya Hind Industries Private Limited, part of the Dr. Abhay Firodia Group of Companies with an enterprise value exceeding Rs. 46,000 crores, was established in 1946. A pioneer in India's aluminium die-casting industry, the company began manufacturing aluminium die-cast

components in 1964 and is today among India's largest and most trusted end-to-end solution providers for aluminium castings, serving leading global and domestic OEMs.

Jaya Hind Industries is a fully vertically integrated company with world-class tool manufacturing capabilities and downstream machining facilities. It houses the largest in-house tool design and manufacturing setups in the Indian die-casting industry, with the ability to manufacture high-pressure die-casting dies and critical gravity die-casting tools.

It has a comprehensive range of over 45 HPDC machines from 160T to 4400T, of which over 25 are 1000T and above, complete with fully automatic die-casting cells, robotic extraction, and real-time controls. Jaya Hind Industries has developed a wide portfolio of critical parts ranging from 5 gm to 51 kg, serving a variety of industries in automotive as well as non-automotive fields. Jaya Hind Industries offers end-to-end solutions to auto manufacturers for their various weight reduction/localization requirements and has manufacturing facilities at Akurdi and Urse in Maharashtra, Chennai in Tamil Nadu, and Pithampur in Madhya Pradesh.

Jaya Hind Industries' customer base consists of world-renowned OEMs like BMW, Skoda Volkswagen, Cummins, Ford, Stellantis, Daimler, Volvo, Renault Nissan, Maruti Suzuki, ISUZU, Mahindra, Tata Motors, Bosch, to name a few.

Jaya Hind Industries is the only company to have won the "Best Foundry in India—Large Sector" Award instituted by the Association of Aluminium Die-casters and Equipment Manufacturers of India seven times, viz., 2008, 2010, 2014, 2016, 2018, 2022, and 2024.

Strengthening its global presence, Jaya Hind Industries has acquired LMG Manufacturing GmbH in Germany through Jaya Hind International B.V., significantly enhancing the Group's footprint in Europe. The acquisition includes two dedicated manufacturing facilities in East Germany and a tooling and engineering business in Nuremberg, expanding the company's capabilities in high-precision electromobility solutions for the European market. The German operations serve leading global customers such as BMW, Mercedes-Benz, Nidec, and Webasto, and produce critical electromobility components for BMW electric vehicles, including key platforms such as Neue Klasse.
